

Invitation

**If we do not keep our backyards clean, our Swaraj will have a foul stench.**

Everyone must be his own scavenger.

**We can no more gain God's blessing with an unclean body than with an unclean mind. A clean body cannot reside in an unclean city.**

I learnt 35 years ago that a lavatory must be as clean as a drawing-room.

**- Mahatma Gandhi**

## Manifesto

Typological investigations in public sanitation

**30th Nov - 8th Dec, 2017**

Presented by

**Nehru Science Centre**  
National Council of Science Museums  
Ministry of Culture, Govt. of India

A project by

Supported by

**Mahatma Gandhi Centre**  
for Sanitation, Cleanliness and Community Health  
शौच | श्रुतिता | स्वास्थ्य

An initiative of Observer Research Foundation

Should we not resolve not to leave a speck of dirt in our villages, cities, streets, public areas, school, temples, hospitals etc. by 2019 when we celebrate the 150th birth anniversary of Mahatma Gandhi? This cannot be achieved by the Government alone, but with public participation. That's why way we have to do it together...

If 125 crore countrymen decide that they will never spread filthiness, which power in the world has ability to spread filthiness in our cities and villages? Can't we resolve this much?

-Excerpt from Honourable Prime Minister  
**Shri Narendra Modi's**  
address to the nation on Independence Day 2014

#### Project Background:

The infrastructure in our cities and villages have always been imagined as an engineering system which has no relationship with the human body, community and the environment it is situated in. Their imagination has always been utilitarian in nature where fulfilling a function and a basic need is of prime importance. This Exhibition initiates a new discussion on nature of infrastructure, where they are not problem solving formulae but are holistic public spaces integrated in everyday lives of people.
